British Official Urges Pacific Conference

Sinn Fein Leaders Show Open Opposition To The British Peace Offer

Australian Premier Urges Pacific Conference Be Held Soon in London

Premier Hughes States Conference Necessary And Vital Before Disarmament Is Discussed.

By ED. L. KEENE
(United Press Correspondent.)

London, Eng., July 23.—A conference to thresh out Pacific problems should be arranged immediately, Premier. W. M. Hughes, of Australia, told the United Press in an exclusive interview here today. He urged that the meeting be held in London within the next three weeks.

Must Recognize Japan's Needs.

"Japan's need of room for expansion must be fully recognized at this conference," he declared. "There can be no disarmament until the need for armamnt no longr exists," he said. "From this it follows that until the vital problems o the Pacific have been settled by agreement between the three great naval powers of the world, disarmament or limitation of armament is impossible

Conference Of Vital Import.

"Therefore," he resumed "it is vital that a conference be held to deal with these problems as soon as possible. London is the most convenient place for the Pacific conference, although I believe the disarmament conference could be more conveniently held a Washington."

The Premier declared that all parties must enter into the conference with the idea firmly fixed in their minds to "give and take" with good will. "If the Pacific, or any other conference," he said, "Is to be a success, there must be giving as well as taking. The problems are just as vital to Japan as to the United States and Australia and we must go into the conference prepared to give way just as far as we consistently can in protection of our vital interests."

President Harding Leaves For Camp In Blue Ridge Mts.

Washington, July 23.—President Harding set out by motor early today to join Henry Ford and Thomas Edison on a short camping expedition along the Uupper Potomac at the foot of the BlueRidge mountains He expects to reach the camp, pitched on the West Virginia side of the Potomac, 25 miles from Hagerstown ,in time to eat a hearty lunch.

This is President Harding's first adventure at roughing it since his inauguartion. His last camping trip was at Ft. Isabel, Texas, shortly after his election last fall. He will now have a chance to get itno an old shirt, baggy trousers and kick around over the rocks and fish if he cares to.

Davis at Lunch

Jim Davis, secretary of labor, has a little fruit and that's all for his lunch. He gets it at a street fruit stand near his office.

FAST PASSENGER TRAIN WRECKED; ENGINEER DEAD

Deleware & Lackawanna Fastest Train Leaves the Tracks—Cause of Wreck Unde-

Scranton, Pa., July 23.—"The Lackawanna Limited" fastest passenger train on the Delaware, Lackawanna & Western railroad, was wrecked 12 miles west of here Friday afternoon. Engineer Charles Coolbaugh of this city was killed and 10 injured.

As the train left the track extra freight train No. 588, traveling east at a rapid rate, crashed into the wreckage.

CARPENTERS AND JOINERS WILL RESUME WORK

Accept Wage Cut and Open Shop Principle. Ban Sympathy Strike.

Philadelphia, Pa., July, 23.—11,000 union carpenters and joiners wil lreturn to their work as soon as it resumes a normal scale, following the signing of an agreement between officials of the union and the Employers Association to end the strike started here May 1st.

The agreement calls fer an acceptance of a wage cut of an average of 24 per cent, acceptance of the open shop principle, time and one half for overtime, and the banning of sympathetic strikes. The men will now receive 90 cents an hour. Other branches of the building trade are still on strike.

Dreaming of Fishes.

To dream of being in a fish market shows that you possess great spirit and that you will be rewarded for your trouble. To dream of the tin of a fish denotes poverty and wretchedness.

DIFFERENCES ARE VOICED BY TWO GREAT POWERS

Expressions From Australia and Japan Are Discussed At Capitol.

By A. L. BRADFORD
United Press Correspondent

Washington, D. C., July 23.—Differences in the way of the Washington disarmament and pacific conferences came from two great powers today. The exclusive United Press interview with Premier Hughes, of Australia, calling for a preliminary conference in London devoted entirely to Pacific affairs, was taken as indicating that the British Dominion premier may be preparing to make an issue on this point.

Meanwhile replies from JaJpan to the American invitation had apparently been decided on in Tokio conferences but the decision was unknown here today. There have been several suggestions however, preliminary to a conference in London and which have been reported informally by Ambassador Harvey to Secretary of State Hughes .

However, Premier Hughes' open demand for this course created mild surprise here.

SHARON POLICE ON TRAIL OF WOMAN IN RANDOLPH CASE

Reported Officers Have Found Clue To Her Identity and Expect Her Arrest At Early Date.

Sharon, Pa., July 23.—Sharon police tonight stated that the identity of the woman reported to have been with Thomas Randolph at the Homer Hotel in Stoneboro Monday and Tuesday nights is known and her arrest is expected momentarily. It is said the woman comes from Cleveland. If apprehended she will be brought to Mercer county and charged with being an accomplice in the attempt to get $50,000 from E. V. Randloph and others .

Thomas Randolph told District Attorney Leroy Rickard at Mercer today that the woman was a demonstrator for a firm making toilet articles. It is said two charges of conspiracy will be filed against her.

No effort has yet been made to obtain $7,000 bail for Randolph ,who is in Mercer jail .

Randolph still sticks to the story that he was "kidnapped" 'and held for $50,000 ransom.

FISH HOGS DRAW FINES WHEN THEY ARE GIVEN TRIAL

Four Illegal Fishermen Taken Before Squire Dale and Fined Total Of $110.

The fish hogs who recently raided Poplar Run were run down and arrested by Game Protector Kelley and Davis and taken before Squire John A Dale at Curwensville and fined a total of $110.

The illegal fishermen who despoiled the stream were Joseph Conrad, Blair Porter, Rufus Newcomer and Russel Brown.

OPEN OPPOSITON TO IRISH PEACE NOW DEVELOPS

Sinn Fein Leaders Express Unfavorable Views Toward Offer.

DE VALERA TO GO TO LONDON AGAIN

But Will Not Carry Acceptance of British Peace Offer.

By. CHARLES M. McCANN
United Press Correspondent

Dublin, July 23.—Open opposition to the acceptance of Premier Lloyd George's Irish peace was expressed by Sinn Fein leaders here today. It was predicted that unless prevented by new obstacles "President" De-Valera would return to London with in a fortnight, not to accept the peace plan in its present form.

The general sentiment of the Sinn Fein leaders is that a resumption of hostilities is preferable to potential dominion home rule which does not include the right to secede from the Empire, to raise separate armies, and which lacks any of the three features comprising the constitutions of other dominions.

Both Factions Sincere

There appeared, however, one vital reason for hope, a sober sincerity holding both factions against a reopening of the old war wounds which every one here believes will be a merciless fight to the death. Dail members began conferences today, although they were termed as mere preliminaries and it is not believed real consideration will begin until Monday. Following out present plans members will probably draw up a refusal next week which will be couched in such terms as to permit the reopening of negotiations and attempts to draw out some more favorable offers from the British government.

LEGION WILL PAY LAST RESPECTS TO ELMER COLE

Remains of Dead Soldier Will Be Laid At Rest With Military Ceremonies.

The funeral of the late Corporal Elmer Cole, whose body arrived from France yesterday morning, will be held from Trinity Methodist church Sunday afternoon at 2 o'clock.

The funeral will be in charge of John Shade Post, American Legion, and the following men have been detailed for the following duties:—

Pall bearers.—Bowman A Brown, J. Willard Chase, John I. Harry, J. J. Frederick May, Forest J. Root, Charles R. Walpe.

Substitutes.—Chester I. Cowdrick, B. Frank Stewart.

Firing squad.—Foster Kerr in command. John Flegal, Clyde Johnson. David Wright, Lex Miller, J. Lynn McPherson, William Porter, Joseph Sansone.

Bugler.—Reginald Stevens.

The firing squad will meet at th Legion rooms promptly at 1:30.

The American Legion Band will also be in attendance and will meet at the Legion rooms at 1:30.

The body will be taken to the church from the Cole home on Ogden avenue at 1:45 o'clock.

CLEARFIELD HAS WINNING TEAM IN THE FIELD

More Financial Support Required If It Is To Stay In This Class Throughout Season.

A regular meetin gof the directors of the C. C. A. A. was held last evening at which the future of the Clearfield baseball club was discussed. It was the sense of the directors present, that although they could not go beyond the available funds, every effort would be made to support a team for the whole season.

A Winning Team Now

It was pointed out that although the first part of the season was very disastrous financially and that during the third week of the season there was no attedance at all, but now the attendance is much better and we have what the fans wanted—a wining team. Yesterday made the seventh straight victory, and more than that, it was the victory that put the manager in the winning class, his team now having won one more than it has lost.

Do You Want Baseball

But here are the cold facts: The directors are gratified at the gate receipts at present but more financial support is needed to "carry on."

To Africa!

Alice Bradley, 6, of Chicago, is going to take her dolly with her when she accompanies her father and mother on an excursion into the gorilla country of West Africa. Most of her traveling will be in a hammock swung between native bearers. The expedition is under the direction of the American Museum of Natural History and will be supervised by Carl Akeley.

Dozens of men have indicated their willingness to contribute in cash to keep The Terriers in the race and on Monday and all through next week they will be given an opportunity to give a boost. Be ready sports! It has often been said that Clearfield will support a winning team. We have it now. Let's go.

CLEARFIELD VISITOR

A. D. Bingman, of Rochester, N Y. formerly round house foreman in the local New oYrk Central yard was a Clearfield visitor yesterda while on his way to Jersey Shore to attend a family reuninon.

Aged Woman Victim of Brutal Attack of Gang of Thugs---Take Savings

Found By Neighbors 3 Days Afterward In a Semi--Unconscious Condition — Tells of Abuses Suffered.

Pittsburgh, Pa., July 23.—One of the most brutal attacks perpetrated in Allegheny County for months was discovered yesterday when neighbors of Miss Ida Schenecher, aged 60, who lives in a deserted spot in Little Deer Creek road, near Rural Bridge, Indiana township, found her bound, gagged and stupefied from cholorform in her bedroom where she had been lying in a semi-conscious condition since Tuesday night. The woman had been the victim of a brutal attack. Her head had been badly beaten with a dull, blunt instrument and she had been robbed of her lifetime savings, a little more than $300.

Tells of Brutal Attack

Late last night, before being removed to the New Kensington Hospital, Miss Schenecher told county detectives that she had been attacked by several men last Tuesday in her home and after being repeatedly attacked and assaulted finally was forced to reveal where she had hidden her small savings of a lifetime. Her story of abuse at the hands of th fiends ewas the worst county detectives had heard in many years. She did not state how many men were in the party.

TROOP 4 OF BOY SCOUTS BREAKS CAMP SATURDAY

Had Enjoyable Two Weeks At Camp Or Montgomery Creek. Troop 2 Is Next.

Troop No. 4 Boy Scouts, who opened Camp McPherson ,broke camp this morning and returned home after two weeks vacation. The boys enjoyed the time immensely and returned to civilization very much improved in health and possessed of vast funds of Scout lore.

Troop No. 2 with Scout Master Gregory Hartswick in command, will take possession of Camp McPherson on Monday and remain the coming two weeks.

BEALS—WATSON

James W. Beals and Miss Hazel M Watson, both of Moshannon were united in marriage at Trinity Methodist parsonage by the Rev. W. W. Hartman, Thursday morning. Miss Watson has been a teacher in the public schools of Centre county.

STATE ROAD TO PHILIPSBURG WILL OPEN AUGUST 6

Supt. of Roads Westcott Makes Announcement In Answer To Many Queries Sent In.

The Progress has been queried a number of time regarding the date for the opening of the Clearfield-Philipsburg State road through Blue Ball. We took the query to County Superintendent of Roads Westcott and his letter printed as part of this article gives the desired information.

Everything possible is being done to expedite the work on this road and things are moving just as fast as it is possible to make them and this fact should be respected by the travelling public. That such is not being done will be noted by reading Mr. Westcott's letter.

Detours in Good Shape

The detours on this road are really in first-class shape and above the ordinary in the way of detours and there is no excuse for motorists violating the rules of the Highway Department as complained of. The detour from Wallaceton or by way of Holt's store to Morrisdale and Graham station are both in fine shape and the same is true of the detour to be reached by leaving the cement road at the tipple beyond the Pennsylvania station at Tigler and around into Blue Ball and hence over the State road to Philipsburg.

Way Well Marked

In speaking of these detours, which are supposed to be maintained by the County Commissioners and Township Supervisors, to say that County Superintendent Westcott has his detours marked in such a manner as to entitle him to great praise therefor. It is impossible for the stranger to miss the Clearfield county detours and we have heard motorists say who have traveled over the State that Clearfield county detours are better and more plainly marked than are those of almost any other county in the State.

The letter referring to the Blue Ball road follows:—

Clearfield, Pa., July 21, 1921.

Clearfield Progress,
Clearfield, Pa.

Gentlemen:

This is to advise you and through you the public in general that the new improved road through the village of Blue Ball only will be open for traffic the afternoon of August 6, 1921.

This will eliminate the detour to Philipsburg, via Warring's farm, Morrisdale dam and Graham Station, and traffic can use the original road, Clearfield to Philipsburg.

On account of the fact that certain automobilists, who have no regard for law or apparently anything else, have been attempting to travel over these new improved roads before the curing time is up, it has been necessary to place watchmen night and day at the barricades. It, therefore, should be positively understood that any person or persons found intereferring in any way with the barricades on either end of the closed section of new road, or travel over it in violation of the law, will be vigorously prosecuted. This information is for all concerned.

Yours very truly,
E. M. WESTCOTT,
Superintendent District 1-5.

Houtzdale Man Now Seeks To Recover $340 From Coal Co.

John C. Arnold Esq., entered suit in Prothonotary Ralston's office Friday on behalf of John Hyder ,of Houtzdale, who seeks to recover $340 from the John E. Dale Coal Co. Inc., of Altoona. The amount sued for represents the price of a car load of coal sold the Dale Co., on Nov. 2, 1920, and for which payment was never made.

One Born Every Fourth Minute

A lady who had a famliy of three children didn't wont any more because she had heard that every fourth child born in the world was a Chinaman.

As ludicrous, perhaps, as an old misconception some skeptical folks used to have about advertising.

There was a time, when some advertisements had to be taken with a grain of salt. A few misguided advertisers thought they could sell their goods better by misrepresenting them. Those advertisers have long since gone out of business or mended their ways. Hard experience taught that untruthful advertising didn't pay.

Other advertisers proved that the only way to advertise successfully, make regular customers, and build up good will was to **tell the absolute truth** about their goods in their advertisements.

You can depend on the merchant or manufacturer who advertises. The concern that tells you frankly what it is doing is a good concern with which to do business. The store that advertises is a progressive store that has something really worth while to say to you. And companies that advertise their products or their service have confidence in them. You can safely share their confidence.

Inferior merchandise cannot masquerade in the quality clothes of advertising.

Read the advertisements!

MINGO MINE WAR SENATE HEARINGS CONCLUDED FRIDAY

Washington, D. C. July 23.—Senate committee hearings on conditions in the Mingo, W. Va., coal fields were concluded Friday with the possibility they be resumed in the near future either here or in West Virginia. Chairman Kenyon said the committee had not determined whether anything could be gained by going to the scene.

DOC. STORK HERE

Old Dr. Stork left a fine big girl baby at the home of Mr. and Mrs. oJseph Loddo on West Front street yesterday.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

John Y. McKenrick, of Lumber City, son of Mr. and Mrs. John S. Mckenrick and Miss Olive Bilger, of Bloom township, a daughter of Mr. and Mrs. W. A. Bilger were married Thursday forenoon by Squire J. A. Dale ,at his residence on River street.

The members of the Baptist Sunday school held a picnic in the Peewees' Nest grove yesterday. It was a jolly crowd and they certainly enjoyed the day.

Prof Mender Brenetti, who is home on a vacation from Morgantown, W. Va., college was summoned back to school yesterday to take up the duties of one of the instructors who had been taken ill and died.

Mrs. John A. Lewis, of Birmingham, Ala., who has been visiting in this vicitnity for some time, returned to her home yesterday.

The merchandise in the Bickford bankrupt store and sold on Wednesday brought the sum of $4,035 and was bid in by Mr. Kantar a Curwensville man.

The families of Mr. Howard Thompson and Vincent Spencer have arrived from Bellefonte and are now domiciled in the Garry Hoover house on corner of George and Thompson streets.

DUBOIS GLASS CO. PLANT IS SOLD

DuBois, Pa., JuJly 23.—The DuBois Glass company at Falls Creek which has stood idle since 1918, was sold yesterday morning, the Pittsburgh Lens Glass Company, of Pitts burgh, being the purchaser.

FATHER OF ARMY OFFICER COMES TO HIS RESCUE

Leaves His Lexington Home To Tell Where Son Got His Money.

Washington, D. C., uly 23.—William R. Campbell today came to the defense of his son, Major Bruce Campbell. The father was summoned from his home at Lexington, Ky., to tell the Bergdoll Investigating Committee where and how his son got hold of the $7000 that was deposited to his credit with Wasserman Bros., brokers of New York.

The major told the Bergdoll committee that charges made by Mrs. Emma Bergdoll, mother of the wealthy slacker, Grover Cleveland Bergdoll, that he had accepted $5000 or that he had asked her for $100,000 to fix "higher ups" were false.

TROUT RECORD IS BROKEN BY BELLEFONTE MAN

Bellefonte, July 23.—All records for trout were smashed Friday morning at 6 o'clock when Al Smith hauled from Spring Creek a trout of the brown species measuring 28 inches from tip to tip and weighing nine pounds. The fish measured 15 in. in circumference.

The fish was game and gave Mr. Smith the tussel of his life before he finally landed the monster. He hooked the fish with an ordinary trout hook baited with a minnow. Mr. Smith was fishing in one of the deep holes just below town when he got the bite. Being unable to land him from the deep water, Mr. Smith finally got him with a landing net.

Northport, N. Y., July 23.—Despondent because her son, Rev. Thomas Oakley of Mexico, Mo., had to return to his duties in the West, Mrs. Adelaide Oakley, aged 79, yesterday committed suicide by setting fire to her clothing a few hours after he had left.

"FIT FOR A QUEEN"

Modern plumbing, to which American women are accustomed, is far ahead of that enjoyed by any of the famous queens of history.

And this is as it should be, for nothing it too good for the "Queen" of the American family.

A bath room "fit for your wife" and family can be installed in your home quickly, and at relatively small cost. We'll appreciate the opportunity to show you modern fixtures of moderate cost but of great usefulness and good looks.

Brookville Squad Gets Short End of Batfest

Manager Izzy and The Squad Chase Fielders Right and Left With Salvo of Bingles. Score 11 to 5.

Manager Hoffman and his Terriers struck terror to the hearts of Brookville baseball fans when they invaded the Jefferson county seat ball field yesterday afternoon and clubbed and hammered the "hill billys" who cavort about the diamond for that benighted village for their seventh straight victory. At the end of the lurid session "Sheriff" Reilley's score sheet showed Clearfield, 11; Brookville, 5.

Was Real Swatfest.

The game was a swatfest from start to finish, the two teams poling out thirty-three hits for a total of forty-five bases. Our own hit to much better advantage than did the Brookvillians and also played errorless ball behind Fileshifter.

Triple Play In First.

Lefty Hill, pitching ace of Brookville, was delegated to humble the visitors and even up for the lacing they gave him on his last appearance in Clearfield. Lefty meant well—but. He easily disposed of the side in the first inning, although Farrell and Seigfried opened with singles. With Farrell on second and Seigfried on first Anderson hit a hot one down to shortstop. Warren, who dug the ball out of the dust, touched Farrell on his way to third, then stepped over to second ahead of Seigfried and threw the ball to first in time to catch Anderson, completing a triple play. It was a nifty bit of baseball and got Hennie a great hand from the crowd.

Hill Again Gets His Bumps.

Harris opened the second for Clearfield with a slashing drive for two bases. Hoffman's single scored him. Zerfluh was out at first and Wolfe fanned. Hopper singled, scoring Hoffman. Fileshifter followed with a single, but Farrell ended the inning with a pop to third.

After two men were down in the third Harris singled. Hoffman doubled and Zerfluh singled, Harris and Hoffman both scoring.

Fourth Big Inning.

The fourth inning was the real session of the afternoon for our boys. Wolfe, first up, was hit by the pitcher. Hopper fanned, but Fileshifter cracked out a single. Farrell and Seigfried each hit for two bases and Harris' hit, after Anderson fanned, netted four runs.

Singles by Zerfluh, Fileshifter and Farrell, with an error accounted for two more runs in the seventh, while Andeson's triple and Harris' sacrifice fly in the eight got run No. 11 over the rubber.

Brookville Counts In But Two Innings.

While Brookville got fifteen hits off Fileshifter, fast baseball prevented them from scoring in seven of the nine innings. A single by Hill and doubles by Swanson, Warren and Thompson resulted in three runs in the third, while a single by Swanson, a double by Warren and triple from Jimmy DeHart's dangerous bat scored their final pair.

The score:—

CLEARFIELD—	AB	R	H	PO	A	E
Farrell, cf	5	1	4	0	0	0
Seigfred, 2b	5	1	2	7	7	0

Struck out—By Hill, 6. Base on balls—Off Hill, 1. Umpire—Scribner. Time of game—1:45. Attendance 1000.

Body Washed Ashore . Believed To Be That of Veteran Ball Player termined.

Greenport, N. Y., July 23.—A body believed to be that of Arthur Irwin retired baseball player, who was thought to have jumped from the steamship Calvin Austin, bound from New York to Boston last Friday, was washed ashore Friday at Port Terry on Plumb Island.

CARPENTIER HAS PROBABLY FOUGHT LAST FIGHT AGAINST DEMPSEY

By HENRY L. FARRELL
(United Press Staff Correspondent)

New York, July 23.—Georges Carpentier probably fought his last great fight against Jack Dempsey. There is every reason to believe that the Frenchman is through.

FARRELL

Much of his spirit is gone and his right hand, his only hope in the ring, is cracked.

Led to believe through the adulation of his countrymen and through his own experience in the ring that he was a "man of destiny," Carpentier learned that he isn't. He found out he is not the greatest and it hurt him.

Already the Frenchman has given signs of a broken spirit. The picture of him "before and after" at Manhasset is a strange contrast. Happy, care free and content, he simled and was jovial all through his training. Defeated, he turned rather sullen and morose.

His attitude was striking apparent at a banquet given in his honor recently by the Editor & Publisher All the visting British and French writers were there and prominent newspapermen from New York. All during the evening Carpentier sat at the head of the table. He looked off into the distance like a caged lion staring into old realms where he was once supreme. He seemed totally oblivious to his surroundings, except when one of the speakers would make a remark about him. Then he would seem to jump out of his reverie and smile wanly as if thinking: What is it all about or what does it amount to now?

In looks, in actions and in his attitude, he was a defeated man, a man who made no attempt to conceal the feelinys that he had failed in his preatest ambiiton and that he didn't care any more.

We know from one of his French newspaper friends that he feels just that way. He told his friend that he was ashamed to go back to France, that he would like to delay his return as long as possible. He would say, because they are still loyal, but he fears the look in their eyes, the attitude they can't hide that he had disappointed them in one of France's greatest hours.

That broken spirit will have just as important a bearing on his future in the ring as his fractured hand. He will hesitate to put all his strength behind bones, once cracked, will crack again. Fighters know what bad hand means just as well as physicians and Carpentier knows, too.

A wise handler of boxers, who has been in the game for thirty years, remarked recently that it was not strange that Harry Greb, Tommy Gibbons, Bill Brennan and even Johnny Wilson, the middleweight champion, are after a bout with Georges.

"The next good one that goes into the ring with him is going to get him. He's through now. He will never be the same again. Frenchmen are more romantic, more temperamental than Americans. He'll never forget Dempsey," he said.

TWO BIG STADIUMS FOR PACIFIC COAST

Pasadena, Cal., July 23. (United Press.)—Plans for the second great stadium in California is definitely under way here, following the purchase of the first piece of land to be used ni connection with the big Tournament of Roses stadium in the Arroye Secco.

A deed for ten acres of land was in possession of the tournament today, following the conclusion of negotiations with Henry Shlaudeman of this city. Deals are now under way for the purchase of additional land, while the city had condemnation proceedings started to acquire other lands for the project.

Sanford University will probably have the record for constructing the first giant stadium in California, as work on the Stanford project is already under way, it is said, and is being rushed as fast as subscriptions from alumni and friends of the univerity come in. The Stanford stadium will be the largest in the west, and one of the largest in the country.

To Be, There Is No Question.

When an eligible man proposes to a maid of thirty summers, there isn't apt to be any Hamlet's soliloquy business.

SUMMER MOTOR TOURIST NOW HOLDS CENTER OF THE STAGE IN THE WEST

Portland, Ore., July 22. (United Press.)—Gone are the slow-moving vans, the moth-eaten steeds, the canvas-covered prairie schooners. The tourist of yester-year has been relegated to the limbo of oblivion with the advent of the flivver and the paved highway.

The modern gypsy is here!

Portland is the clearing house for hundreds of tourists each day at this time of the year. And these tourist are in a class by themselves.

California or Canada bound, they are pouring over the highways of the Northwest—an animated, good-natured, Goth-like hoard, roving of eye, cheerful of countenance, and amiable of disposition.

In vehicles of all sorts they come, from touring cars with neatly arranged cases containing baggage to big lumbersome bodies mounted on "flivver" chassis, in which whole families live day in and day out, and from whose windows the eager faces of children peer and from whose sides float string-loads of varicolred "wash."

No weather can deter them, no hardship cast them down. They are out for a good time. Some parties have been on the road for months, others have just started.

In the auto camp here license tags from as many as thirty states havt mingled their colors and their combinations of numerals. Along the highways drifting smoke betokens the presence of campers along meandering creeks and beside cool rivers.

They are going somewhere. Where? They don't know.

"We're seeing the country," they say. "We've worked hard for years and now we're taking our vacation. It's a great life."

It is no uncommon sight to see the puny radiator of a cheap car puffing valianty to hurry along a barn-like tonneau with a family of a dozen.

The carmaraderie of it all!

"Oh, dad, look, there's the people we saw near Yosemite," a youngster will cry. Or,

"Hello, folks. Haven't seen you since we pulled through Fourth of July canyon. How's tricks?". Or,

"By George, we'd sure been out of luck if you folks hadn't loaned us that gasoline there in the desert."

The whole northwest is pervaded with the spirit of the modern gypsy. And here, where their Mecca seems to be, the long lines of them stretch back into the Middle Western plains, up into the mountains of Canada, or down into the rice bottoms of California.

"Make way for the migratory American," mutters the traffic cop, as he swings his semaphore to watch them chug past.

LUCKY STRIKE CIGARETTE

DISABLED STEAMER IS TOWED TO PORT

San Francisco, July 23.—The Pacific Steamship Company's steamer Admiral Farragut which was disabled Thursday night off the coast 10 miles north of here, passed into the harbor at 9 o'clock yesterday in tow of the tug Sea Eagle.

This Month the Twentieth Anniversary of Motoring Efficiency

At the outset, twenty years ago, it was the aim of the Franklin to make a car that would be the most serviceable that could be built. The accomplishment of that result is indicated by the following facts:—

During the past seven months the Franklin has been selling two and one half times faster than the average of all other cars in the industry.

Twenty years ago this month the Franklin dared to be economical and comfortable. It dared to adopt scientific light weight, flexible construction and direct air cooling. It has dared to continue these principles, with constant refinements, quality materials and workmanship, until in the last six months it has gone from 18th to 4th place in value of sales. June was the largest June in Franklin history and the seventh largest of any month.

On June 24th, 1921, the man who bought the first Franklin writes: "It is rather a coincidence that today I have purchased and am driving out a new Franklin, almost twenty years after I drove away the first one for a trip back to New York."

Since that first Franklin rolled out of Syracuse, more than 700 other American makes have gone out of existence. That alone tells one big story of Franklin merit—the kind that retains the confidence of its owners by a greater percentage than any other car in the world.

Yet the story that means most to the Franklin owner and to the thoughtful purchaser is that told by the Franklin on the road—its day-by-day, year-round performance.

For it is *on the road* during its twenty year history that the Franklin has proved its outstanding comfort, ease of handling, safety, reliability, economy and freedom from trouble. And it is on the road that the Franklin has compiled these evidences of consistently good results:

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Averages)

The Franklin's position today is due largely to this long history of motoring efficiency and a readjustment of motorists' ideas. They are scrutinizing *value* levels and putting the curb on wastefulness and extravagance—but they are still continuing to buy full value in service.

We shall be glad to demonstrate, at your convenience, what twenty years of motoring efficiency can mean to you.

THE UPPER SILESIAN MUDDLE.

Just when everything has quieted down in international circles and the Washington scribes had about worn out their pens on the Disarmament Conference idea, along comes the Silesian question again and presumably the long suffering news readers will have to endure another seige of verbal mayonaisse It seems from an outsider's standpoint the great European powers each consider the Treaty of Versailles and the League Covenant written for their own special benefit. Else why all the bickering and dickering over political boundaries, and the like?

Perhaps it is just as well the United States did not "go in" with Europe in ratifying the treaty. From all indications it is merely another one of those famous "scraps of paper" although we are bound to admit it is a "deluxe" edition in appearance.

It would be better for all concerned if the troublesome Silesian question were settled once and for all and the diplomatic minds of Europe put to work at solving economical problems that would tend to advance prosperity in over seas countries. Just when the experts were beginning to tell us "I told you so" and things seemed to be going lovely again "over there" trouble had to break loose once more.

WAS THE GOVERNMENT NEGLIGENT

Things do not seem to be going along so well with the prosecution of draft evaders. Very little is seen in news dispatches lately regarding court martial proceedings in draft cases. Convictions seem to be on the wane. Is the government negligent, or was it negligent? This seems to be the question. In court martial proceedings in a mid-west cantonment not so very long ago, where a slacker whose case attracted statewide interest was on trial, the military court refused to punish a man on the evidence offered by the trial advocate. Without question it was proven the man had not served the colors; that he was eligiblle, and that he should have been called.

However, the government offered only flimsy evidence to show the man had actually been called. They presented testimony showing a card had been mailed him, but were totally unable to present any evidence showing he had received the card. The man was dismissed after spending several months awaiting trial in a barbed stockade. Somebody erred. That much is certain. The man in question should have worn Uncle Sam's uniform along with many others. But he did not, and made little excuse for not doing so except the fact he "had not gotten his card". Which, under the circumstances was sufficient to secure his release from custody. The goverment, it seems, in unwinding the draft tape, should have forseen this contingency. A similar case is now pending before court martial in session at Governor's Island.

Many of the critics of the present administration are howling everlastingly about "lost motion" in government circles at Washington. If President Harding and his cabinet, senators and congressmen listened to the yowlings of these calamity howlers and took their vague meanderings to heart, they would undoubtedly have to be exponents of "perpetual motion" to satisfy the kickers.

Over at Atlantic City an Illinois rustic visitor was badly shocked one day, according to his letter to the Safety Director, at seeing a young lady bather disrobe behind the curtains of her automobile, which was parked at a street corner near the outskirts of town. First all we might inquire why and how he looked so close at the curtained car as to be able to be shocked. And then we might warn the said ruralite to stay away from Clearfield bathing "resorts" as the bathers are denied, in most cases, even the protection of auto curtains behind which to change clothes and are forced to depend on the foilage of scrub oaks growing along the banks. And we'll whisper another word or two. The leaves are awful thin this year.

THE BUSINESS MAN'S BANK

While its service is so flexible as to suit the requirements of any customer, the County National is primarily a commercial bank.

Its connections with the great banks in the cities, and through them with the entire World enables it to give the business man any service he may need.

Its large invested capital and resources make it possible in practically all cases to lend customers as much as they require.

Many of the progressive business concerns of Central Pennsylvania find County National Service entirely satisfactory.

You are invited to test it.

7:30 Public Worship.
Everybody welcome

CHRISTIAN AND MISSIONARY ALLIANCE
Rev. A. N. Salvie, Pastor
Saturday evening service at the Court House seps at 8 o'clock. Sunday services are held at Susquehanna College of Music Auditorium
1:30 p. m. Sunday School.
7:30 p. m. Preaching.
Services at Mineral Spring Park. There will be services at Mineral Springs Park on Sunday at 3 p. m. held by the Christian and Missionary Alliance of Clearfield. All are invited to come. In case. of rain the services will be in the Pavillion. Good singing and the Full Gospel is preached. Come.

United Christian Church
Curwensville
There will be preaching on Sunday at 10:30 a. m. and 7:30 p. m. Bible study on Wednesday evening at 7:30. Rev. A. N. Salvie will preach Sunday morning and Wednes day evening. Come.

ST. JOHN'S LUTHERAN CHURCH
Corner Pine and Third Streets
E. Roy Hauser, Pastor.
Sunday school 9:15.
Morning worship -0:30. Sermon by pastor. Theme "Co-Operation."
Evening worship 7:30. Theme "The Moulding of the Vessels."
Wednesday evening 7:30 "quiet hour."
There will be an important congregational meeting at the close of the morning service. Every member is urged to be present.
Strangers, visitors and all without a church home are cordially invited to worship with us.

TRINITY M. E. CHURCH
Rev. William W. Hartman, Pastor
9:30 Sunday School.
10:45 Public Worship and sermon.
6:45 p. m. Epworth League service
7:30 p. m. Public worship and sermon.
The church cordially welcomes visitors and strangers to all these services .

Ape Man Positively Identified By the Pittsburgh Police

Breaks His Silence And Tells Officers How He Escaped From Hospital.

Pittsburgh, Pa July 23.—Joseph Thomas, notorious Negro "Ape Man" charged with murder, assault and other dastardly crimes, is now in a cell in the Allegheny County Jail, a dejected and depressed figure after his battle with death at Columbia Hospital, his leap from a second story window in the hospital building in an attempt to take his own life, and his daring career as a fugitive when, realizing he was unhurt from the 20-foot plunge ,he fled from the hospital grounds and attempted to elude police and detectives in a Nation-wide hunt.

Identification Positive

All doubt that the man arrested by the Baltimore police was Thomas was removed when the fugitive admitted his identity and described his escape from Columbia Hospital. Incidentally the mystery surrounding his escape was cleared by his own statement that no one had assisted him in loosening the shackle from his leg and no one had given him shelter from the law while he was fleeing through Western Pennsylvania on his way to the South.

Hail Cannot Be Prevented.

The theory that hail could be prevented by firing cannon or discharging explosives never was accepted by scientists, and careful experiments have shown that it has no foundation. The theory was advanced that the agitation caused by an explosion would prevent the formation of hailstones.

REACHING " OUR SPEED"
.... AT ..LAST

A new type of motor-driven machine has just been put on the market in the shape of an aero-car. It is a sport machine, driven by fan, in much the same manner as an airplane, and is manufactured at Huron S. D. A speed of forty miles an hour on the highway is claimed for the device and sixty miles an hour on ice. It has no gears to shift and the power is supplied by a two-cylinder six-horse power, two cycle air cooled engine. The factory price is announced at $175. The weight of the machine, which is a four wheeled vehicle with two seats, is about 150 pounds.

* * * *

French writers are beginning to worry because they are afraid of gynocracy, as it is called, or rule by women. This worry is due to the fact that as a result of the war there are one million more women in France than there are men. That doesn't worry we Americans, we know who runs our country, alright; but at that the "dear things" appear to enjoy the way they are getting away with it, and who cares. Somewhere in the bible it tells us that there is a day coming when "seven women will take hold of one man." Poor man.

* * * *

Uncle Sam sure is a liberal old cuss. During the war our Uncle lent Johnny Bull some five billions of dollars to finance John's war against the Kaiser. When 'e 'ad 'is back to the wall and 'ollered so loudly for 'elp, Uncle Sam sent boat load after boat load of doughboys across the sea to help keep the Kaiser out of Lunnon. John transported a lot of them in his boats and being a much better collector than a payer he succeeded last week in "shaking down" Treasury Secretary Andy Mellon for $32,000,000 to finish paying for ferrying the soldiers across the sea, despite the fact that the five billions and interest yet remain unpaid.

* * * *

A Bavarian scientist, Prof Herman White, has developed an extremely powerful X-ray treatment for deep-seated cancer which bids fair to revolutionize the treatment of this dread disease. The difficulty in the past has been to get the full adequate dose of X-rays which will kill the growth down to the centre of the cancer without destroying the healthy structures between it and the skin. This has been overcome at last.

So successful have the results in the women's clinic at Erlangen been that all operations for the removal of cancer have been abandoned.

Eighty per cent of cancers have been apparently cured by this method after a period of three and a half years.

The word "apparent" is used because no doctor can say that cancer is "cured." All he can say is that the growth has not recurred.

Within five years, one authority states, not 10 per cent of cancers will be treated by surgeons.

* * * *

A Jersey "marrying parson" with long experience in the "hitching process," in a recent sermon advised the young man to refrain from marrying the young girl who smokes cigarettes and paints her face. He refused to incorporate the word "obey" in his marriage ceremony because he says:

"Women were not put on this earth to be mere doll babies or playthings. They should not be slaves to their husbands any more than slaves to fashion or the so called "smart" practices of their day and hour. The smoking girl does not really belong in any ideal of young womanhood that is worth while.

"Girls, when you marriy, keep out of debt. Do not be extravagant. Try to be wives on a fifty-fifty basis just as if you were partners with your husband in a commercial enterprise. He is entitled to it and so are you.

"Young men will find that the tender, modest, sane girl is the most promisiing for a good wife. Don't marry a moody girl. Get a girl with a happy disposition, but don't expect her to be bright and cheerful every morning of her life. That isn't human."

"Pick out a man whom you are certain you can trust, one you can depend on for the true love and devotion in good times and bad, in health and in sickness, in sorrow and in joy and you will never need to smoke or paint your face or dress better than you can afford.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, billious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Spraying—Failure to continue spraying during intensely hot weather has already demonstrated that losses will be suffered on early potatoes. Where spraying was continued at regular ten day or two week intervals, potatoes are reported to be in good condition.

Poultry—July and August are the worst two months for lice and mites in the poultry house. For lice, use mercurial ointment, which can be purchased from the druggist. Put an amount about the size of a pea under the wings and around the vent. For mites, paint the roosts with a good coal tar product.

Garden—Heavy soils on which early crops have grown will almost always need to be plowed or spaded again before late crops will grow well. A little more manure or complete fertilizer will also help.

Sheep—To raise "hothouse lambs" for marketing to select trade next February or March, breeding should be done now. Great care must be exercised in rearing lambs at that season, but the prices received for extra early lambs make it profitable.

Dairy—All breeders of pure bred dairy cattle expecting to begin Advanced Registry testing this fall should be fitting their cows at this time. Keep in mind that a cow freshening in poor condition has a poor chance to make a good record.

A Good "Hunch"—The fruit shortage in Pennsylvania this year will doubtless tend to create a greater demand than usual for vegetables. See that the garden gives a maximum production for the rest of the summer. It will pay to consider vegetable storage facilities.

GRAPE ROT THOUGH PREVENTION IS HANDY

"I have seen scores of farmers who complain of their grapes rotting on the vines, pass under their grape arbors a dozen times a day with spray materials and spraying apparatus for use th emon the grapes to prevent rotting," says Professor E. L. Nixon, extension plant disease specialist of the Pennsylvania State College. "It would be a matter of only a few minutes time and little expense to turn the spray on the grapes right now and repeat the operation in two weeks. If the farmer would only think to do it. The grape mildews will get in their work from now on, and applications of 4-3-50 Bordeaux mixture will do a great deal to cut down losses from rot. All clusters should be well drenched."

DUBOIS AUTOISTS HAVE NARROW ESCAPE IN WRECK

Car Struck By Engine On DuBois Crossing. Carried 50 Feet Along Tracks and Demolished.

DuBois, Pa., July 23.—What proved to be a fatallity occurred yesterday at 12:35, when a Pennsylvania engine crashed into a 1919 model Briscoe car, at the crossing on DuBois avenue. The Pennsylvania passenger engine was backing up on the "Y" when an automobile party attempted to cross. The car was driven by Harry Edwards, son of Thomas Edwards ,of 507 S. Main street ,and its occupants were Mrs. Tim Mcnight, of Conifer, Mrs. Tom Edwards, Mrs. Vera Hartman and Harry Edwards.

The driver attempted to stop the machine as he glimpsed the oncoming engine but did not succeed. The car was pushed along the track for about fifty feet and the front end entirely demolished.

Mrs. Hartman was painfully cut and bruised and an ankle is believed to have been broken. The others received minor cuts and bruises.

Bees Have Smallest Flats.

The smallest apartment houses are those occupied by bees. In a cubic foot of honeycomb there are about 9,000 cells.

here tonight

Horned Toads Harmless.

Horned toads are harmless. They will not bite, even when taken in the hand. As a means of defense, they have a habit of spurting little jets of blood alternately from each eye when disturbed.

THIS YOUNG MOTHER

Tells Childless Women What Lydia E. Pinkham's Vegetable Compound Did for Her

Milleton, Wis. — "I want to give you a word of praise for your wonderful medicine. We are very fond of children and for a considerable time after we married I feared I would not have any owing to my weak condition. I began taking Lydia E. Pinkham's Vegetable Compound and now I have a nice strong healthy baby girl. I can honestly say that I did not suffer much more when my baby was born than I used to suffer with my periods before I took Lydia E. Pinkham's Vegetable Compound years ago. I give all the credit to your medicine and shall always recommend it very highly." —Mrs. H. H. JANSSEN, Milleton, Wisconsin.

How can women who are weak and sickly expect or hope to become mothers of healthy children? Their first duty is to themselves. They should overcome the derangement or debility that is dragging them down, and strengthen the entire system, as did Mrs. Janssen, by taking Lydia E. Pinkham's Vegetable Compound and then they will be in a position to give their children the blessing of a good constitution.

JAP PICTURE BRIDE SUES FOR DIVORCE

Honeymoon Over Was Told To Get Out In Field and Earn a Living.

Sacramento, Cal., July 22.—(United Press.)—The disillusioned ending of a picture bride's romance was revealed here when Mrs. Toyo Kamuro filed a suit for divorce from her husband, S. Kamuro.

Mrs. Kamuro's complaint tells the story of her marital relations from the day she met her husband, whom she had never seen before, at the immigration station in San Francisco until February of last year, when her husband told her "to get out in the fields and earn a living.

Mrs. Komuro alleges that her husband drove her from her home "so that he could marry a woman who would work and bear children who could work later."

The Amateur's Score.

W. S. Gilbert once received a letter from an amateur composer suggesting that they should collaborate. "My score," wrote the amateur, "will be satisfactory, for, though educated as a chemist, I am a born composer." Gilbert wrote back regretting that he could not comply with the request. "I should have preferred," said he, "a born chemist who had been educated as a musician."

CHINESE WORKERS ATTEMPT TO FORM LABOR FEDERATION

20,000 On Strike In Canton, China—Paid Agitators Are Responsible.

By CHARLES EDWARD HOGUE
(United Press Staff Correspondent)

Shanghi, China, July 22.—Paid agitators who have set the rest of the world on end through labor disturbances have awakened sleeping China and are today engaged in organizing what they hope will be a counterpart of the American Federation of Labor.

Twenty thousand working men are on strike in Canton today and nearly that many have quit their jobs in Shanghai.

Peking and Tientsin are to be the next points of attack and after that if the preliminary movements against the employer in the larger cities are successful ,the plan is to extend the propaganda to the smaller communities throughout the country.

That foreign methods have been adopted by the Chinese leaders is evident and there is a strong suspicion among the authorities that a foreigner is secretly directing the campaign. But thus far all efforts to discover the identity of the "Man Behind the Throne" have been unavailing.

Pittsburg Traffic Head Issues Drastic Order For Autoists

Pittsburgh, Pa., July 23.—As an aftermath of the fatal automobile accident here last night in which Ralph McCay, 26, was killed and five others injured, Traffic Commissioner Marshall, of the local police, today issued orders to all policemen to arrest every motorist who stops and picks up pedestrians for rides. The order was believed to have been aimed at motorists who invite the girls to ride.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Rev. Father Ryan Celebrates Silver Jubilee Tuesday

Rev. Father M. A. Ryan, pastor of St. Francis Catholic church celebrated his silver jubilee or twenty-fifth anniversary of his ordination to the priesthood on Tuesday last .

Father Ryan is a graduate of Alleganey College and Niagara University and was ordained to the priesthood by the late Bishop Tobias Mullen at Erie on uJly 19, 1896. He remained in Erie as Secretary to Bishop Mullen for a period of six months and was then sent to the pastorate of the Catholic church at Brady's Bend. He remained at Brady's Bend until December 15, 1907, at which time he was chosen pastor of St. Francis congregation to succeed Rev. Thos. W. Cavanaugh, who was transferred to Titusville.

Father Ryan has made a host of warm friends among the people of all denominations during his pastorate here and has their best wishes for a long and successful continuance of the same.

Father Ryan celebrated his Jubilee was at 8 o'clock Tuesday morning. The large altar was handsomely decorated in red and white, the decorations being the work of his sisters. Misses Annie and Alice Ryan. The choir rendered a pleasing special musical program, while an exceptionally large number of the young people received communion at the mass as a special measure of respect to their pastor on this happy occasion.

Cornelius B. Ryan and Thomas I. I. Ryan, of Newburgh, New York, brothers of Father Ryan, were in attendance at the jubilee.

Sleep Is Hard to Make Up.

It takes 15 days for the average human body to recover fully from the loss of two consecutive nights' sleep.

Popular Barber Of Cambridge Springs

Mr. B. Rodgers who has given scalp treatments in the leading Barber Shops of Pittsburgh says CRUDOLEUM has stood the test for years while other hair tonics have come and gone. He believes that there is nothing that equals CRUDOLEUM for preventing falling hair. He is giving CRUDOLEUM scalp treatments to many of his friends with very satisfactory results and the trade is increaing every day. Say soap and water alone can not eradicate dandruff. CRUDOLEUM is bottled by Wm. M. Simpson Drug Co., Wilkinsburg Station, Pittsburgh, Pa. MEN ASK YOUR BARBER FOR A CRUDOLEUM SHAMPOO.

Shoes Wear Out—So Do Batteries!

When a pair of shoes wear out you have been notified in advance by the thinness of soles or cracking of the uppers—or some other easily recognized sign.

But when a battery wears out you may be taken by surprise, because batteries often go strong until the last minute.

The way—and the only way—to cut trouble and worry and cost to the limit is to buy the best battery—the Willard Threaded Rubber Battery. Its Threaded Rubber Insulation gives you the most miles of uninterrupted service per dollar.

World's Supply of Indigo.

Indigo, which is obtainable from plants of several species, is probably the oldest dye known to mankind. At the present time the bulk of the world's supply of indigo is obtained synthetically from aniline. The importance of natural indigo is rapidly diminishing. About the only regions where indigo farming still prevails on a commercial scale are Bengal, in India, and Salvador, in Central America.
